

CONNECTED

KEEP LEARNING AND STAY CONNECTED

MAKING THE MOST OF REMOTE LEARNING

KEEP LEARNING AND STAY CONNECTED!

In this first edition of 'Connected' we hear from our Captains who compiled a video reminding us of the importance of staying connected and getting on with the work in hand.

We'll be sharing photos of the fantastic remote learning that's taking place daily and success stories from within our College Community.

Our College Captains and some student leaders met on Wednesday via WebEx to make a short film for our community and show that we are still able to communicate even in isolation!

"It was fun to film but even more importantly, to demonstrate the power of staying connected using technology to inspire and motivate you all to continue producing great work".

Keep learning and stay connected

Whats working well

Feedback

WHATS WORKING WELL

FOOD TECHNOLOGY

Mrs. Sampson and students have been cooking up a storm this week in Food Tech!.

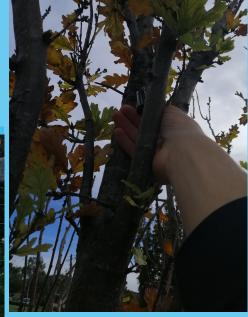

Year 11 OED students were asked to take photos of what their outdoor environment around them looks like.

OUTDOOR ED

Year 10 OED students tried their luck at Geocaching in the local area... these lucky people found something

ART IS WHERE WORK MEETS LOVE

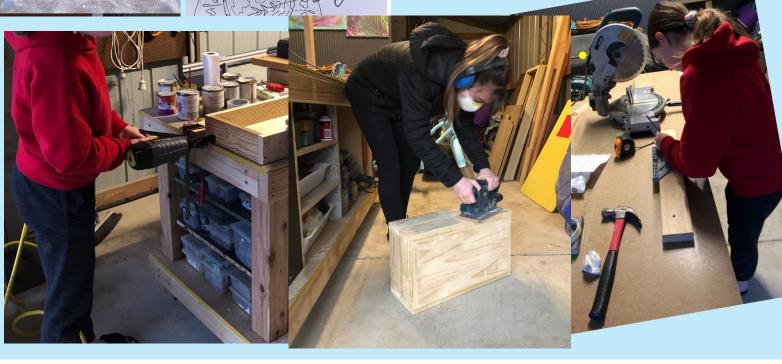

"Every child is an artist" and boy do we have some talented artists at LSC, thanks for sharing their work Ms Gaitanis.

WOOD TECHNOLOGY

Really great use of your home space and family resources. Keep up the 'Wood' Work!

PΕ

Students involved in Ball sports this week were being very creative with their Soccer and Basketball activities, well done guys!

FEEDBACK

Students and parents have been providing us with feedback over the last 4 weeks of remote learning. We are really pleased

to share some of these comments.

"getting him to think clearly, being patient, walking around with him, over dramatising and being loud was fun, better than me sitting and just reading for him. The good thing was it was 1:1, with no one else to bother him or distract him like classmates."

"In reality I know how difficult it must be for you as a teacher, with the high pressured environment and dealing with teens is ridiculously hard! I couldn't do it. So, I Thank you!" "I have a newfound appreciation for teachers and really understand how difficult your job must be looking after 25 teenagers at once. I admire your work so much that I want to bake all of my son's teacher's cupcakes!".

It was really surprising and great to receive a priceless gift from you and LSC staff. Special thanks for the wishes and assurance for support you will give me.

Please pass my thanks to other staff members and specially to the Principal. YEAR 12 STUDENT "What I did today to lift my heart rate, breathe a bit heavier, get a bit sweaty with my family was 'Running wall to wall carrying a bucket full of water' it was really fun doing this with my family. When we were doing this exercise, we all agreed on if you get wet you are out, but at the end we got tired so we all just splashed all the water on each other and started playing a water fight. I really enjoyed this exercise with my family." P.E STUDENT

"I have much more appreciation for what hard work teachers do and go through and having to deal with kids since remote learning, - WOW. It's a struggle every day and I appreciate your diligence and patience."

Students, you are doing an amazing job remote learning, keep it up!

Parents and carers who are able to support students during remote learning, you are also doing a fantastic job! THANK YOU

LOOK AFTER YOUR HEALTH AND MENTAL WELLBEING

On Thursday, our Principal, School

Leaders, some of our teachers and ES staff made a special trip to Year 12 students' homes delivering hand made care packages.

Thanks to the whole team for organising this thoughtful gesture; shopping, writing cards, delivering and making our Year 12's day!

To all our Year 12 students, we just wanted you to know we are thinking of you and can't wait to have you back on site.
